Clarins

Mission Perfection Serum Luxury-Size /1.7 fl. oz.

Dark Spot Corrector

\$98.00

~~Glyceryl Stearate, I~~
~~Hexylresorcinol, Me~~
~~Dioxide, Sodium Pc~~

Details

Dark Spot Corrector, Even Skin Tone, Healthy Radiance. Flawless skin à Mission accomplished! Powered by Acerola extract, Clarins' groundbreaking serum targets dark spots, redness, shadowy areas and discolorations. Promotes an even, luminous complexion - without altering the natural skin tone. All ages, all skin types, all ethnicities. How to apply: Apply each morning and/or evening to clean face and neck using the Clarins Touch for Face to boost microcirculation and encourage lymphatic drainage: Warm product in palms then gently place on cheeks, forehead, neck and décolleté. Follow by pressing into skin with firm yet gently pressure, never pulling or tugging the skin. Move outward from the cheeks toward the ears, from the center of the forehead to the temples, and from the jaw down the decollate. Follow with moisturizer. Ingredients: Water, Glycerin, Butylene Glycol, Caprylic/Capric Triglyceride, Isononyl Isononanoate, Cetearyl Ethylhexanoate, C14-22 Alcohols, Dimethicone, Pentylene Glycol, Glyceryl Stearate, PEG-100 Stearate, PEG-8, Cetyl Alcohol, Hexylresorcinol, Methyl Methacrylate Crosspolymer, CI77891/Titanium Dioxide, Sodium Polyacrylate, C12-20 Alkyl Glucoside, Silica, Phenoxyethanol, Polymethyl Methacrylate, Potassium Cetyl Phosphate, Mica, Parfum/Fragrance, Ethylhexylglycerin, Polyacrylamide, Sodium Hyaluronate, Xanthan Gum, Tartaric Acid, Atractyloides Lancea Root Extract C13-14 Isoparaffin, Disodium EDTA, Caprylyl Glycol, Propylene Glycol, Tamarindus Indica Extract Spermgeria Rubra Extract, Laureth-7, Tocopherol, Malpighia Emarginata (Acerola) Fruit Extract, Ginkgo Biloba Leaf Extract, CI 15985/Yellow 6, CI 14700/Red 4, Sorbic Acid, Sodium Benzoate, Ascorbic Acid. Ingredients are subject to change at the manufacturer's discretion. For the most complete and up-to-date list of ingredients, refer to the product packaging. Key ingredients: Acerola extract targets dark spots for a unified complexion; Ginkgo Biloba supports microcirculation to enhance radiance. 90% of women perceived improvement after 4 weeks. Satisfaction test - 266 women - 4 weeks. 1.7 fl. oz. Made in France.

Evaluation of the Joint FAO/WHO
Expert Committee on Food Additives
(JECFA)
4-HEXYLRESORCINOL
1995

... residue levels of approximately 1 mg/kg in the edible portion... [are] not of toxicological concern.

Scientific Opinion on the re-evaluation of 4-hexylresorcinol (E 586) as a food additive (2014)

...toxicologically acceptable...provided that residues in crustacean meat do not exceed 2 mg/kg.

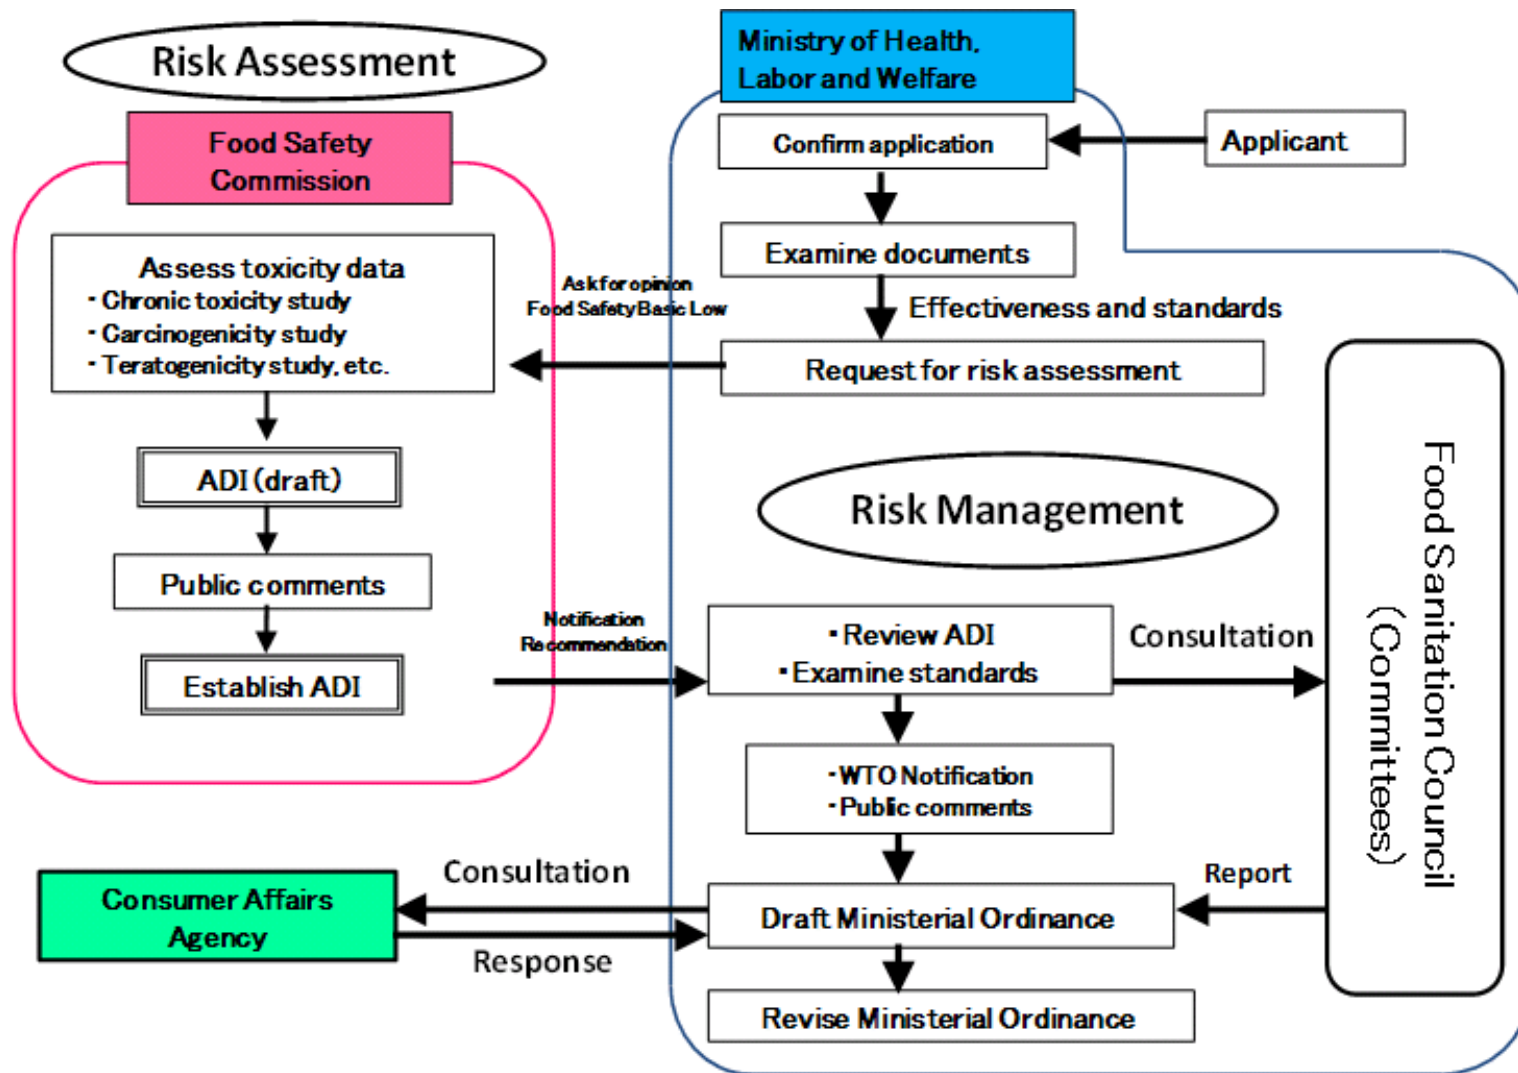

Regulation (EC) No 1333/2008

Name	Maximum level (mg/kg)	Footnotes	Restrictions/ exceptions
4-hexylresorcinol	2	(90)	Only fresh, frozen or deep-frozen crustaceans

(90): As a residue in the meat

Japan: “Procedure to designate food additives”

Sodium metabisulphite & sulphites

- Some individuals, especially asthma sufferers, are sensitive to sulphites.
- Long term exposures to SO₂ leads to breathing problems and respiratory illnesses such as asthma.
- SO₂ from sulphites has killed fishermen in the US.
and
- Product dipped in sulphites requires an allergen label.

Potential for export

- One producer received a “preliminary” order for
 - 50 tonnes (£700,000)
- This is just 4% of the producer’s business.
- Extrapolated to 4% of UK production, this would be equivalent to
 - 600 tonnes (£8,400,000)
